INTERNATIONAL PRELIMINARY EXAMINATION REPORT

(PCT Article 36 and Rule 70)

				
Applicant's or agent's file reference 11521PC2-PD	FOR FURTHER ACTION	See Notification of Transmittal of International Preliminary Examination Report (Form PCT/IPEA/416).		
International Application No.	International Filing Date (day/month/year)	Priority Date (day/month/year)		
PCT/AU2003/001520	13 November 2003	13 November 2002		
International Patent Classification (IPC) or	national classification and	IPC		
Int. Cl. 7 C04B 14/00, 26/02, 26/14, 2	6/16, 26/18; C08K 3/0)		
Applicant				
THE UNIVERSITY OF SOUTH	ERN QUEENSLAND	et al		
1 701				
This international preliminary examinat is transmitted to the applicant according	tion report has been prepag to Article 36.	red by this International Preliminary Examining Authority and		
2. This REPORT consists of a total of 3	sheets, including this co	ver sheet.		
	_	of the description, claims and/or drawings which have been		
amended and are the basis for this	s report and/or sheets con	taining rectifications made before this Authority (see Rule		
70.16 and Section 607 of the Adr	ninistrative Instructions u	nder the PCT).		
These annexes consist of a total of 1 sheet(s).				
3. This report contains indications relating	to the following items:			
I X Basis of the report				
II Priority				
III Non-establishment of opi	opinion with regard to novelty, inventive step and industrial applicability			
IV Lack of unity of inventio				
V X Reasoned statement unde citations and explanation				
VI Certain documents cited				
VII Certain defects in the inte	lefects in the international application			
VIII Certain observations on t	he international application	on .		
Date of submission of the demand	ŀ	ate of completion of the report		
4 June 2004	2	September 2004		
Name and mailing address of the IPEA/AU	. A	uthorized Officer		
AUSTRALIAN PATENT OFFICE PO BOX 200, WODEN ACT 2606, AUSTRALIA				
E-mail address: pct@ipaustralia.gov.au Facsimile No. (02) 6285 3929		AMES DZIEDZIC		
	ı	elephone No. (02) 6283 2495		

PCT/AU2003/001520

I.	Basis of the	report			
1.		ith regard to the elements of the international application:*			
	the interna	tional application as originally filed.			
	X the descrip	otion, pages 1-10, as originally filed,			
		pages , filed with the demand,			
		pages, received on with the letter of			
	X the claims	pages 12-14, as originally filed,			
		pages , as amended (together with any statement) under Article 19,			
		pages , filed with the demand,			
		pages 11, received on 25 August 2004 with the letter of 25 August 2004			
	X the drawin				
		pages, filed with the demand,			
		pages, received on with the letter of			
	ine sequen	ace listing part of the description:			
•	•	pages , as originally filed			
		pages, filed with the demand pages, received on with the letter of			
2.	337:41	• • •			
۷.	which the interna	ne language, all the elements marked above were available or furnished to this Authority in the language in ational application was filed, unless otherwise indicated under this item.			
	These elements v	were available or furnished to this Authority in the following language which is:			
	the langua	ge of a translation furnished for the purposes of international search (under Rule 23.1(b)).			
	the langua	ge of publication of the international application (under Rule 48.3(b)).			
	the langua and/or 55.	ge of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 3).			
3.	With regard to an preliminary ex	ny nucleotide and/or amino acid sequence disclosed in the international application, the international carnination was carried out on the basis of the sequence listing:			
	contained	in the international application in written form.			
	filed toget	her with the international application in computer readable form.			
	furnished a	subsequently to this Authority in written form.			
	furnished :	subsequently to this Authority in computer readable form.			
	The staten internation	nent that the subsequently furnished written sequence listing does not go beyond the disclosure in the nal application as filed has been furnished.			
	been furni				
4.	The amend	dments have resulted in the cancellation of:			
	tt	ne description, pages			
	th	ne claims, Nos.			
	tb	ne drawings, sheets/fig.			
5.	This repor	t has been established as if (some of) the amendments had not been made, since they have been considered to the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**			
*	report as "origi	eets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this nally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).			
**	Any replacemen	nt sheet containing such amendments must be referred to under item 1 and annexed to this report			

V.	Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citation	ns
	and explanations supporting such statement	

1.	Statement		
	Novelty (N)	Claims 1-32	YES
	•	Claims	NO
	Inventive step (IS)	Claims 1-32	YES
		Claims	NO
	Industrial applicability (IA)	Claims 1-32	YES
		Claims .	NO

2. Citations and explanations (Rule 70.7)

<u>Citations</u>

D2. Derwent Abstract Accession No 37608A/21, (JP 53-041364 A)

D3. JP 11-327564 A

Novelty (N) and Inventive Step (IS)

The Claims 1-32 are considered novel and inventive in light of the prior art documents D1, D2 & D3.

CLAIMS

20

- A polymer concrete formulation comprising:
 an amount of polymer resin;
- an amount of a light aggregate with a specific gravity less than that of the resin:

an amount of a heavy aggregate with a specific gravity larger than that of the resin; and

an amount of thixotrope to allow the light aggregate to be uniformly distributed throughout the resin.

- 10 2. The polymer concrete formulation of claim 1 wherein the polymer resin is any suitable polyester, vinylester, epoxy or polyurethane resin or combination of resins.
 - 3. The polymer concrete formulation of claim 1 wherein the polymer resin content is between 25-30% by volume.
- 15 4. The polymer concrete formulation of claim 1 wherein light aggregate has a specific gravity of 0.5 to 0.9.
 - 5. The polymer concrete formulation of claim 1 wherein the light aggregates usually make up 20-25% by volume of the polymer concrete.
 - 6. The polymer concrete formulation of claim 1 wherein the light aggregates are centre spheres.
 - 7. The polymer concrete formulation of claim 6 wherein the centre spheres has a specific gravity of approximately 0.7.
 - 8. The polymer concrete of claim 1 wherein the light aggregate is hollow glass microspheres.
- 25 9. The polymer concrete of claim 1 wherein the heavy aggregate makes up 40-60% by volume of the polymer concrete.
 - 10. The polymer concrete of claim 1 wherein the heavy aggregate is basalt.
- 11. The polymer concrete of claim 10 wherein the basalt is crushed.
 - 12. The polymer concrete of claim 10 wherein the basalt has a particle size between 5 to 7 mm.
 - 13. The polymer concrete of claim 10 where the basalt makes up
